---

### PROFESSIONAL SUMMARY

BIM Coordinator and Design Engineer delivering infrastructure and landscape mega-projects across Saudi Arabia. Specialised in multidisciplinary BIM coordination, asset information management, and COBie-driven workflows. Architecture background combined with hands-on experience in Revit, Navisworks, Civil 3D and Autodesk Construction Cloud across mega-developments totalling 4.7M m<sup>2</sup> of coordinated project area.

### KEY HIGHLIGHTS

- 3+ years delivering BIM coordination and design engineering across Saudi infrastructure & landscape mega-projects.
- 4.7M m<sup>2</sup> of project area coordinated across three mega-developments (Diriyah Golf Course, Red Sea Coastal Village, Wadi Greening).
- Prepared 70+ asset register and COBie register files for infrastructure programmes, owning data integrity from design through handover.
- Coordinated 75+ multidisciplinary BIM models across architectural, civil, MEP and landscape disciplines.
- Delivered 30+ IFC and shop drawing packages supporting construction and project delivery teams.
- Fluent across 10+ BIM and design tools — Revit, Navisworks, Civil 3D, Dynamo, ACC (BIM 360), Aconex, Revizto, AutoCAD, 3Ds Max, V-Ray, Lumion.

### PROFESSIONAL EXPERIENCE

#### Design Engineer

Oct 2023 — Present

**Citiscap** • Riyadh, Saudi Arabia

Driving multidisciplinary BIM coordination and asset information management across mega infrastructure and landscape projects.

- Managed COBie and asset information workflows for infrastructure projects, ensuring data integrity from design through to handover.
- Coordinated multidisciplinary BIM models using Revit and Navisworks for large-scale infrastructure developments.
- Delivered shop drawings and model coordination for irrigation networks and landscape infrastructure across mega-projects.
- Supported model integration, clash coordination, and asset data delivery across architectural, civil and MEP disciplines.
- Developed Dynamo scripts and automation routines to streamline repetitive BIM tasks and improve modelling consistency.

#### Designer

Jul 2023 — Sep 2023

**U. Oasis Consultant Engineering** • Khobar, Saudi Arabia

Interior design work for hospitality and high-end residential projects across Saudi Arabia.

- Designed a coffee shop in Hail from concept through to construction-ready documentation.
- Contributed to a palace design in Al Hizam Al Thahabi, producing interior plans and concept visuals.
- Developed initial interior plans, finishes layouts and 3D concept visuals to support client presentations.

## FEATURED PROJECTS

### Diriyah Golf Course

780,000 m<sup>2</sup>

*BIM Coordination · Infrastructure & Landscape*

Managed asset information and COBie workflows for a 780,000 m<sup>2</sup> golf course development in Diriyah, coordinating irrigation, utilities and landscape systems across multiple disciplines.

**Tools:** Revit, Navisworks, Civil 3D, ACC, Dynamo, Aconex

### Red Sea Coastal Village

1,500,000 m<sup>2</sup>

*BIM Coordination · Coastal Development*

Coordinated BIM models for a 1.5 million m<sup>2</sup> coastal village development along the Red Sea, supporting infrastructure delivery and constructible workflows across multiple disciplines.

**Tools:** Revit, Navisworks, Civil 3D, ACC, Aconex, Revizto

### Wadi Greening

2,416,033 m<sup>2</sup>

*BIM Modelling · Desert Rehabilitation*

Delivered Revit models and IFC documentation for a 2.4M m<sup>2</sup> wadi rehabilitation and desert-greening initiative, supporting design coordination across landscape and civil teams.

**Tools:** Revit, Navisworks, Civil 3D, Dynamo Automation

## ADDITIONAL PROJECT CONTRIBUTIONS

- **Ashfur & Turbah Desalination Towers** — Produced shop drawings for two water desalination plant towers in Ashfur and Turbah, Saudi Arabia. (AutoCAD)
- **Madinah Project** — Contributed to shop drawing production as part of the project delivery team. (AutoCAD)
- **Roshn Nursery, Riyadh & Jeddah** — Produced shop drawings and visited site to supervise nursery construction across Riyadh and Jeddah locations. (AutoCAD, Site Supervision)

## TECHNICAL SKILLS

**BIM Software:** Autodesk Revit, Navisworks Manage, AutoCAD, Civil 3D, Autodesk Construction Cloud (ACC / BIM 360), Aconex, Revizto, Dynamo.

**Visualisation:** 3Ds Max, V-Ray, Lumion.

**BIM & Engineering Discipline:** BIM coordination, infrastructure delivery, asset information management, shop drawings, model federation, model integration, clash detection, design documentation, COBie workflows, IFC drawing production, infrastructure & landscape systems, 3D modelling, rendering.

**Professional Strengths:** Cross-team coordination, reliable on-time delivery, technical documentation, team supervision, process improvement, continuous learning, adaptability.

## EDUCATION

### Bachelor of Interior Architecture

Graduated Jun 2023

**Imam Abdulrahman Bin Faisal University (IAU)** • Dammam, Saudi Arabia

Comprehensive studies in interior architecture covering design principles, 3D modelling, architectural visualisation, and construction documentation — foundation for transition into BIM coordination and infrastructure delivery.

## LANGUAGES

**Arabic** (Native) • **English** (Fluent — Professional Working Proficiency)
